

MEDIA RELEASE

Regensdorf-Watt, January 29th, 2015

Amberg Engineering AG, in conjunction with Gruner AG, has been awarded the contract to construct federal highway section Lungern Nord – Giswil Süd with the Kaiserstuhl tunnel.

Amberg Engineering AG Switzerland, in conjunction with Gruner AG, has been awarded the contract for the approximately 4 km long stretch of road from Giswil Süd to Lungern Nord with the Kaiserstuhl tunnel.

In an initial stage, the approved general project will be analysed for cost optimisation. Subsequently detailed project plans will be drafted. Publication of the draft plan submission is expected by autumn 2017 at the earliest.

The project comprises the construction of a national highway (2nd grade) between Lungern Nord and Giswil Süd with an approximately 2.5 km long two-way tunnel and a parallel safety tunnel. Also included are ventilation systems and electrical substations in the tunnel portal areas and the ancillary infrastructures Lungern Nord and Giswil Süd.

This section of the N8 is a project aimed at completion of the Swiss national highway network. The Canton Obwalden will be acting as the building contractor; however, 97% of the cost will be borne by the Federal government.

NOTES TO EDITORS

Based on the motto "Total Commitment to Underground Engineering", Amberg Group is committed to underground infrastructures. Headquartered in Switzerland, the company's three subsidiaries (Amberg Engineering Ltd., Amberg Technologies Ltd. and Hagerbach Test Gallery Ltd.) have been actively involved in projects in more than 40 countries. Currently, Amberg Group employs approx. 400 staff worldwide. Amberg Engineering Ltd. is an internationally active, independent engineering and consulting company with branch offices in ten countries spread over three continents.

Since 1965, Amberg Engineering Ltd. has been providing total solutions for all tasks related to underground spaces and structural engineering. Clients benefit from this extensive in-house expertise: thanks to a distinct specialization, high safety and cost-effectiveness during construction and operation, as well as tailor-made technical solutions, Amberg Engineering is always one step ahead of the market requirements.
